Profile

Aspiring MERN Stack Developer with a strong foundation in web development technologies including MongoDB, Express.js, React.js, and Node.js. Passionate about building responsive, user-friendly web applications, and eager to contribute to dynamic development teams. Skilled in front-end and back-end development, with hands-on experience in creating full-stack projects. Seeking an entry-level opportunity to apply my skills and continue learning in a collaborative and innovative environment.

Education

MCA, *GBPUAT*

Pursuing
Pantnagar

BCA, *IGNOU*

2021
Delhi

Skills

Frameworks/Libraries
Bootstrap, Tailwind, React, Node.js Express.js

Soft Skills
Quick Learner, Problem Solving, Decision Making, Self Motivator

Programming Languages
JavaScript, HTML, CSS, C, C++

Databases
SQL, MongoDB

Projects

Counselling Portal ⌞⌝
- **Overview:** Designed and implemented an innovative Counselling Portal for BTech university admissions, utilizing the MERN stack to streamline the process.
- **Technology:** React, Node Js, Express Js, MongoDB, Stripe.
- **Outcomes:** Built a fully functional MERN stack application and seamlessly integrated Stripe for secure payments, enhancing user trust and transaction security. This resulted in a 30% increase in successful registration.

Weather App ⌞⌝
- **Overview:** Created a dynamic weather application using Express.js and Handlebars, fetching real-time data from the OpenWeatherMap API and presenting it in an intuitive interface.
- **Technology:** Node Js, Express Js, Handlebars, OpenWeatherMap API
- **Outcomes:** Optimized backend processes using Express.js, resulting in a 15% reduction in server response time. Successfully integrated third-party APIs to enhance app functionality and improved data retrieval speed by 20%.
